**JUNE XXXX**

**ADVANCED LEVEL**

Subject Title	<b>Biology</b>
Paper No.	<b>3- Practical</b>
Subject Code No.	<b>0710</b>

**STRICTLY CONFIDENTIAL**

For the Centre Supervisor

**GROUP I**

Centre No: .....

---

**Questionnaire for Centre Supervisor**

**Please note:**

**One copy of this form must be completed for each group of candidates and attached to the scripts to which it refers.**

*The Centre Supervisor is specifically requested to examine the dissection in order to complete the inquiries listed under question 3.*

*The grade of each candidate's practical note-book(s) should be written on the front page of each candidate's script after the examination. For guidance, please see the General Instructions.*

1. State the specimens and the nature of each of the specimens in the table below:

<b>SPECIMENS</b>	<b>NATURE OF SPECIMEN</b>
A	
B	
C	
D	
E	
F	
G	
H	

Give details of any particular abnormality with specimen(s) provided.

- 
3. Give full details of the specimen provided for dissection. Include any special difficulties experienced with regard to the conditions of the specimen prior to dissection.

(a) Dissection Quality:

Good	=	Neat cut of the perivisceral wall or neat urinogenital cut if necessary.	All organs required clearly displayed in order and visible
Average	=	Neat cut of the perivisceral wall or neat urinogenital cut if necessary.	One or two organs required not displayed in order or not visible
Poor	=	Rough cut of perivisceral wall or no urinogenital cut if neccessary.	Most organs required not displayed in order or visible
Very poor	=	Very rough cut of perivisceral wall or no urinogenital cut if nessary.	Organs required not displayed or visible
<i>Not applicable</i>	=	<i>Extensive damage to animal</i>	<i>No attempt to dissect animal</i>

**Accurate:**

Drawing is true replica of dissection (even when very poor)

**Fairly accurate :**

Drawing is close to dissection.

**Inaccurate:**

Drawing is not representative of dissection.

**The assessment must be clearly written in the answer booklet of each candidate by the drawing of the dissection.**

4. Give full details of the specimens or apparatus provided, where these differ from those listed in the Group Instructions.

**The Centre Supervisor should give a full report of his/her own experiment.**

This image shows a full page of white paper with horizontal dashed lines, typical of primary school writing paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
